Will **you** help the wheels on the bus go round and round?

The bus transports CCFA students to places where opportunities abound, opportunities that they would not otherwise experience due to family and economic situations. These life-long learning experiences develop important life skills, such as swimming at the YMCA and healthy living through physical education at West Chester University. In addition, our students are exposed to important nature experiences in our community. All of these experiences help to increase our students' world knowledge, a significant part of a well-rounded education.

The children go once a week to West Chester University for physical education class and once a week to the YMCA for swimming lessons.

Any questions, please email Sue Flynn at ceo@ccfaschool.org.
